### **Manhunt for suspects continues in northern Illinois after police officer shot and killed**

(Washington Post) A manhunt launched after a police officer was fatally shot in northern Illinois stretched into a second day Wednesday, closing schools in the area as authorities continued looking for suspects. Police said that Lt. Charles Joseph Gliniewicz, an officer in Fox Lake, Ill., was shot and killed Tuesday morning after he reported that he was on foot and chasing three possible suspects. Gliniewicz was a father of four and a decorated officer known to many as “G.I. Joe,” Fox Lake Mayor Donny Schmit said at a news conference Tuesday. “We lost a family member,” Schmit said. Local agencies and federal authorities combed the Fox Lake area after the shooting, sending waves of officers and police dogs out on the ground while helicopters skimmed overhead. Fox Lake, a community of about 10,000 residents, is a little more than an hour north of downtown Chicago. Several schools in the area said they would be closed Wednesday due to the continuing search. Grant Community High School in Fox Lake, which was locked down for much of the day Tuesday, announced that it would be closing after discussions with local officials. School officials said in a statement that “we have all decided that it is in the best interests of our students, the community, and law enforcement, to cancel school.” The Big Hollow, Gavin and Fox Lake school districts also announced that they would be canceling classes because of the ongoing search. “Thank you for your patience and cooperation during this very difficult time for our community,” John Ahlemeyer, superintendent of Gavin School District 37, wrote in a message to parents announcing the cancellation of school. He added: “Once again, thank you for your cooperation and patience as we pull together as a community on behalf of our children and each other.” After Gliniewicz radioed in to say he was chasing three possible suspects shortly before 8 a.m. on Tuesday, contact with him was lost, and another officer found him with a gunshot wound, according to Chris Covelli, a Lake County Sheriff’s spokesman.

### **Hungary’s rightward shift fuels harsh refugee policy**

(Al Jazeera) Thousands of refugees from Syria and other war-torn countries are entering the European Union every day, and states to the south and east of Europe, entry points for many migrants, are facing the brunt of the refugee crisis. Hungary has taken an exceptionally hard line: Authorities shut down Budapest’s biggest train terminal on Tuesday to keep refugees from traveling to Germany and will decide Friday whether or not to deploy the military to its border with Serbia. Hungarian officials have used severe rhetoric when speaking about asylum seekers, at times suggesting they could threaten the existence of a free Europe. “Would we like our children to grow up in a United European Caliphate?” said Antal Rogan, parliament caucus leader for the ruling Fidesz party, while speaking to the local Hungarian press on Tuesday. “My answer to that is no.” Public officials in other European states have issued similarly dark warnings about the refugees, but few other EU countries have responded to migration so aggressively. In addition to shutting down Budapest’s Eastern Railway Terminus, the Hungarian government launched tear gas at refugees attempting to cross the Serbian border, erected a razor-wire fence across the same border and detained hundreds of thousands of incoming asylum seekers.

## **Outbreak of Legionnaires' Disease at San Quentin: San Rafael, Marin County**

On 08/27/15 at 1748 hours, San Quentin's Senior Emergency Management Coordinator (Sr. EMC) notified the Warning Center that an emergency procurement of drinking water will be required due to one confirmed case of Legionnaires' and other inmates showing signs of possible infection.

- Marin County's Public Health Officer met with the San Quentin officials and a "do not drink or bathe" order was enforced at the facility; however, alternate water sources were procured, i.e. bottled water.
- The Cal OES Coastal Region Duty Officer (CDO) furnished the current bulk water hauler list to San Quentin's Sr. EMC.
- San Quentin is currently investigating the possible source of the contamination.
- Water is shut off to the prison and a do not drink/bathe order, has been issued. The prison resumed the use of plumbed toilets inside the facility's housing units, and monitored use of water for cooking as of Friday afternoon. Secondary water sources such as bottled water and water tanks will continue to be used for consumption until it is deemed safe to resume normal water use.
- Inmates are currently being served boxed meals to avoid exposure to steam and mist during cooking operations.
- The prison is planning on needing assistance for approximately 2 weeks, and there are no plans to evacuate prisoners or use laundry trailers.
- San Quentin is a reception center for new inmates to the California prison system. Intake has been temporarily halted as the investigation continues.
- All inmate visiting and volunteer programs have been halted as the investigation continues.
- Per CDO as of 0823 hours on 09/01/15, CDCR issued an updated Press Release. Per the Press Release:
  - There are six confirmed cases of inmates with Legionnaires' which are all being treated at SQ's on-site medical unit. Five inmates are in outside area hospitals being treated for pneumonia-like symptoms but none are confirmed to have Legionnaires'.
  - There are 73 inmates under observation for respiratory illness. They have not been diagnosed with Legionnaires' and are being treated at SQ's on-site medical unit.
  - There are no confirmed cases of staff with Legionnaires'.
  - The Cal OES CDO worked with Marin County OES and DSS Mass Care and Shelter, who provided another local Mobile Kitchen Unit (MKU) at the San Quentin Command Post.

## **Measles Exposure Warning, City of Berkeley, Alameda County**

A test confirmed that a UC Berkeley student was diagnosed with measles Monday, 08/31/2015, after potentially exposing the public to the highly infectious disease.

- The student may have exposed others to the disease between Aug. 24th and Aug. 29th. The student spent time on campus, in the community and rode on a AC Transit bus before developing a rash.
- The city's Public Health Department is working with the University to alert and assess anyone who was exposed to the ill student.
- Measles symptoms can develop between 7 – 21 days after being exposed to the virus. The airborne measles virus can remain in the air for up to two hours. Anyone exposed to the measles may develop a fever and a facial rash and should contact their doctor.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Temperatures will remain near or below normal for the next several days as a trough sits over the west coast. Little to no rain is expected although a few light showers will be possible north of Cape Mendocino Wednesday.

#### **Medford Weather:**

A stronger front will move in this afternoon and evening and this will reinforce the previous front. Precipitation will still be light, but it will spread to the east side tonight. As typically happens with incoming fronts, winds will be gusty east of the Cascades this afternoon and evening.

#### **Reno Weather:**

A low pressure system will increase winds today and Thursday. This will result in critical fire weather conditions, hazardous boating on Tahoe and Pyramid Lakes, and blowing dust in the Black Rock Desert this afternoon. A front will push through and provide cooler temperatures which will remain below season averages through the weekend.

#### **San Francisco Weather:**

Patchy drizzle will be possible along the coast early Wednesday morning. Otherwise, dry weather will continue through next week. Temperatures will continue to cool through Saturday as an upper level trough digs southward into the Pacific Northwest. Warmer and drier conditions return over the weekend and early next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Temperatures will cool to below average the remainder of the week as a weather system moves into the Sacramento Valley. Most showers associated with the system are expected to remain across the far northern portion of the state Friday into early Saturday. Milder conditions return for the latter portion of the Labor Day weekend.

#### **Hanford Weather:**

A cooling trend will take place over the Central California interior during the next few days. Temperatures will average several degrees below normal by Friday and Saturday. Winds will be gusty through and below the Kern County mountain passes and on the west side of the San Joaquin Valley through Friday evening. Temperatures will warm to seasonable levels by Labor Day. Otherwise, dry weather is expected through the holiday weekend.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Scattered mid-level clouds will continue across areas south of Point Conception through this morning onshore flow will support morning clouds with patchy fog in some areas to the west of the mountains through the weekend. A few morning sprinkles are possible south of Point Conception this morning. Below normal temperatures this week are expected to rebound to near normal by early next week.

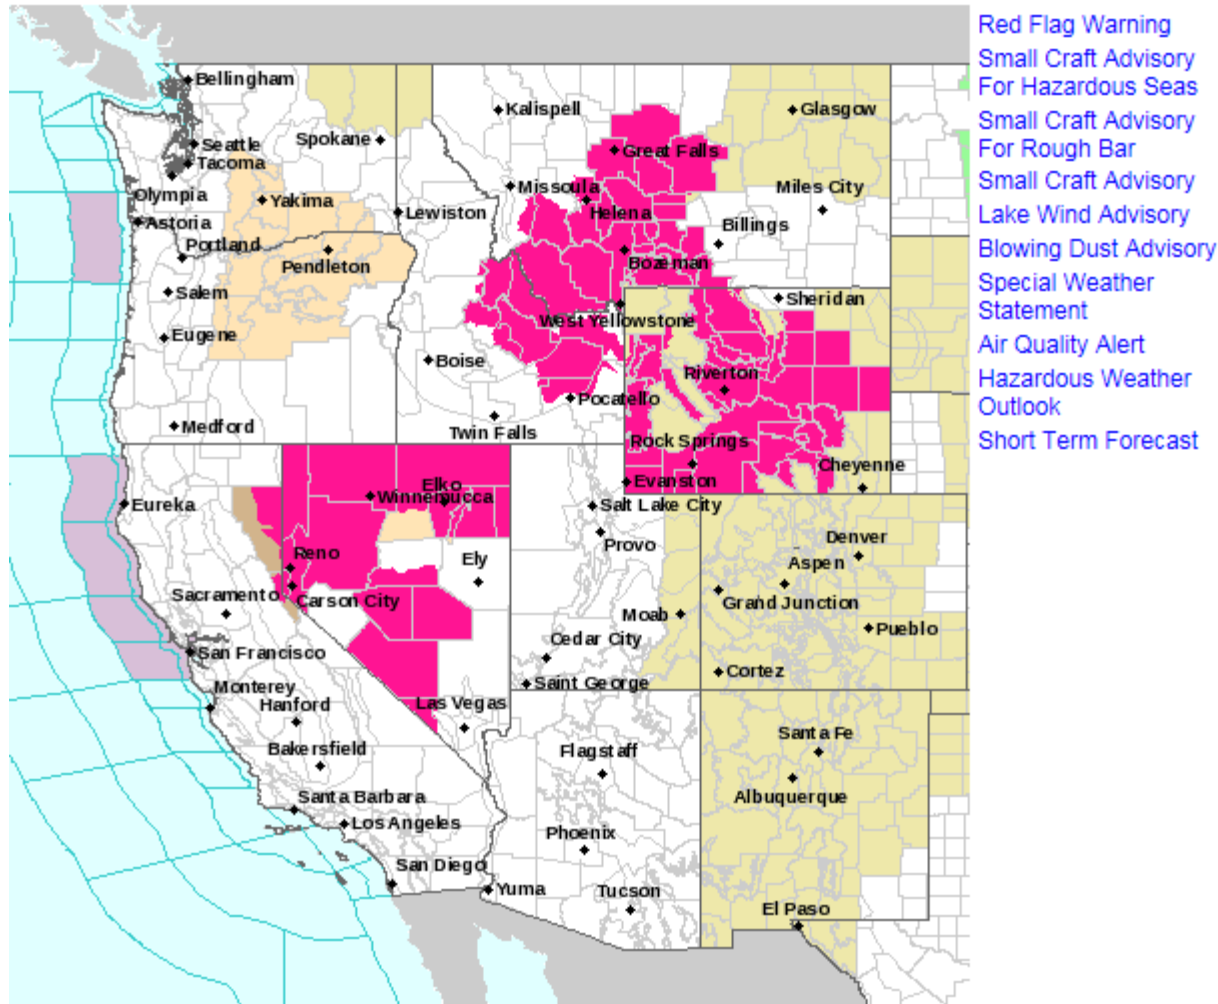

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

A low pressure trough along the west coast will continue the fair and cool weather this week with night and morning coastal low clouds extending well into the valleys. Locally gusty west winds will develop each afternoon and evening along mountain slopes and deserts through mountain passes. Slightly warmer weather will occur this weekend.

#### **Southeast California Weather:**

A low pressure off the west coast that will be moving inland over the next few days is expected to pull additional moisture northward. A return of somewhat drier air will reduce chances for showers and thunderstorms from Friday onward into the upcoming weekend.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
